## The Teacher Conference

### **SPEAKER - MICHAEL BONNER**

**The Transformation of Education - October 24, 2020**

*"We are on the brink of an educational revolution! Students are learning in a world that is quickly being transformed by technology and innovation, but the education system is struggling to keep up. I'll highlight how student, teacher, parent, and community voices matter as we fight to propel our students to greatness."*

Featured on *The Ellen Show* and *NBC Nightly News*, educator, speaker, and author Michael Bonner will share his "lessons learned" from teaching in a Title I school with students with high levels of trauma and adverse situations. Mr. Bonner is a fourth and sixth grade English teacher at the famed Ron Clark Academy.

---

### **SPEAKER - SARI BETH ROSENBERG**

**Deconstructing Classroom Instruction - November 7, 2020**

*"Online instruction was challenging and stressful for students, teachers, and parents alike. The experience challenged me to deconstruct my entire pedagogy as well as the content I taught. In this talk, I will discuss the creative ways I changed my teaching and explore how it will influence my in-person instruction moving forward."*

Sari Beth Rosenberg is a New York City public school teacher who co-wrote the social studies curriculum for the NYC Department of Education. She was awarded the Paul Gagnon Prize from the National Council for History Education, wrote a 13-part series, *"Teaching in the Age of Coronavirus,"* for *PBS Newshour Extra*, and the *#SheDidThat* series on women's history for A&E Television Networks/Lifetime. She currently hosts the *"Zoom Teacher Series"* for *PBS Newshour Extra*.

**Some

**Others
