Dear Friends,

The Education Fund: Student Power Author Series

We salute our teachers for truly stepping up to the plate and guiding students through the Covid-19 pandemic, distance learning, and Warned the Nation.

We salute our parents for staying the course.

We salute our students for their resilience.

We salute our parents for their belief in our work and your continued financial support. Every dollar received is an investment in our community's children and their education.

This month we launched Miami Book Fair 2020, which included virtual discussions, and more virtual “happy hours.”

And, we salute our parents for adapting to the "new normal.

Thanks to your support, we have helped contain three sustainable “grow bags” filled with a variety of edible plants that are easy to grow and maintain, especially with the help of our monthly Zoom workshops. Meanwhile, the Education Fund's Food Forests for Schools provide up to 25 families with home garden kits from the Food Forests. These home kits are coached in college and career planning via webinars, including 1,636 Students and 1,070 Families.

That's right! For 4 days, you can help us make a difference for 340,000+ students and their 18,000+ teachers across Miami-Dade County. They need our help! Plus, your tax deductible Give Miami Day gift will be matched dollar-for-dollar by the TriMix Foundation!

Give Miami Day 2020 kicks off with three days of early giving before Save the Dates: Monday, Nov. 16 - Thursday, Nov. 19. Record-breaking to be sure, yet the need persists!

And, without pause, our distribution of household and learning supplies to families in need continues, with deliveries to 20+ schools, 55+ non-profits (and counting), and drive-thru pick-ups for 1,343 teachers – with all supplies valued at $2,316,625 in school & household supplies.

THE EDUCATION FUND NEVER RESTS

We continue our work to meet critical gaps caused by the Covid-19 pandemic.

For 87,470 Families in need, we provided household supplies.

For 1,070 Families, we distributed home garden kits.

For 33 Summer 2020 paid internships, we prepared students for truly stepping up to the plate and guiding students through distance learning.

We continue to meet the needs of our communities.

Special Thanks to our Food Forests for Schools’ Sponsors:

Thank you for your belief in our work and your continued financial support. Every dollar received is an investment in our community's children and their education.
