OVERVIEW

In the wake of student protests from the Marjorie Stoneman Douglas (MSD) “March for Our Lives,” now more than ever, students are proactive citizens exercising their constitutional rights. From school walk-outs and die-ins to protesting at government offices, students are fired up as constituents of their community (polity) demanding that human rights of life, liberty and safety be enforced for the common good and justice for all.

The source of our project is sparked by students participating in the community engaging in social justice movement. During the **Civil Rights Era** (Student Non-Violent Coordinating Committee), **Apartheid Divestment** (Soweto Uprising), **Vietnam War Protest** (Students for a Democratic Society), **Tiananmen Square** (Pro-Democracy Student Campaign), **Velvet Revolution** and **Black Lives Matter Movement** thousands of students participated in sit-ins, marches, protests and voter’s registration campaigns to express that “We The People” deserve equal protection under the law and have guaranteed rights envisioned by Cyrus the Great, François-Marie d’Aroue (Voltaire), Gouverneur Morris and Eleanor Roosevelt.

Play the Four Corner Game

Label each corner strong proponent, proponent, strong opponent, opponent

A Four Corners debate requires students to state their claim(s) on a specific issue (strong proponent, proponent, strong opponent, opponent) by standing in the labeled corner of the classroom. This activity necessitates that all students participate by requiring them to take a stance.

QUESTION (these questions can be modified to the appropriate grade level that you teach)

1. Strict constructionist argues that the U.S. Constitution requires no judicial interpretation.
2. The 2nd Amendment is relevant today and does not require amending or to be repealed.

A History of Voting in the United States

Present and discuss the following Power Point. The slides will cover the history of voting within the United States. It is important to outline the struggles that have occurred throughout the years and the uphill battle millions of Americans had to endure to get to where we are today. By drawing attention to these issues, students learn to empathize with disenfranchised citizens, grasp the magnitude of our right to vote and in essence not take it for granted.

Overview of the Slides/Information:

Slides 1-3 Opening (discuss imagery in slide 2)

Slides 4-6 Origin of Voting (discuss quote by John Adams and its relevance to the period of time)

Slides 7-9 15th Amendment and pause for Reflection

Slides 10-12 Woman's Right to Vote

Slide 13-14 Native American Right to Vote

Slides 15-18 Civil Rights and Voting Restrictions

Slide 19 26th Amendment (Discuss)

Slide 20-21 Closing

*There are questions for reflection within the slides, but it is also key to pause and discuss the relevance of the events with students.

Collaborative Group Activities

This activity requires groups of four to six students. Five distinct stations with each task needs to be set up in advance. Diversifying the groups with students of differing interest is recommended for purposes of discussion and compromise. Students will rotate through the various stations. It is important at this juncture that they have access to the internet.

*Inform students that at some of the stations they must come up with a consensus for their answer.

1. Groups will be assigned an initial station. Each station will have a specific topic and series of questions that need to be answered. Individuals will need to title their stations and record their answers for each station.
2. Provide each station with copies of the task.
3. Students will be given approximately 7-12 minutes at each station before they rotate to the next. Teacher discretion is advised.
4. After groups have completed their stations discuss their findings in a whole group setting. Bring to light any compromises and or disagreements that arose during this activity and open it to all. Highlight the importance of compromising toward development of a resolution.

Station 1

Felony Disenfranchisement

1. What is considered felony disenfranchisement?
2. Why is Florida one of four states whose constitution permanently disenfranchises citizens with past felony convictions?
3. Is there a pathway for former felons residing in Florida to have their voting rights reinstated?
4. Imagine an individual has committed the most heinous of crimes. Now they have just finished serving their time after x amount of years. Should the right to vote be given back to this individual, explain? (Sometimes its key to test laws to their extreme to determine if they hold) . As a group come up with a consensus answer. Should the right to vote be restored for former felons (why or why not)? Remember there can be an area of compromise. Write out your concluding agreement along with all its components.

Station 2

Gerrymandering

1. Inspect the image above. What is the purpose for drawing district lines in such a way?
2. When are district lines redrawn within states?
3. Do you believe that this system disenfranchised voters? For either answer explain your reasoning with evidence.
4. As a group decide whether there needs to be a new system/regulation in place for redrawing district lines and explain your answer.

Station 3

Voter ID Laws

1. Explain the purpose of the voter ID laws.
2. Find statistics information about claims and counterclaims regarding the voter ID laws arguments.
3. Read the following quotes and answer the questions that follow:

“We are witnessing a concerted effort to place new obstacles in front of minorities, low-income families and young people who seek to exercise their right to vote. A poll tax by another name would smell as vile.” - Maryland Rep. Steny Hoyer, Nov. 14, 2011

- a) Do you consider voter ID laws to be similar to poll taxes of the 1950's and explain your answer?

“As a former U.S. attorney general under President Reagan, and a former Ohio secretary of state, we would like to say something that might strike some as obvious: Those who oppose photo voter-ID laws and other election-integrity reforms are intent on making it easier to commit vote fraud.”
- Edwin Meese

- b) Are voter ID laws necessary to keep the integrity of the voting process, explain?

4. As a group come to a consensus on what should be done about voter ID laws.

Electoral College

Read the following Pros and Cons of the Electoral College system. Discuss as a group and come to a compromise as to whether we should eliminate the Electoral College or keep it in place. Explain your reasoning.

U.S. Constitution - Article 2 Section 1 **The Electoral College (1788)**: Each State shall appoint, in such manner as the Legislature thereof may direct, a number of Electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or person holding an office of trust or profit under the United States, shall be appointed an Elector.

The Electoral College	
Pros	Cons
<ol style="list-style-type: none">1. The Founding Fathers enshrined the Electoral College in the US Constitution because they thought it was the best method to choose the president. Using electors instead of the popular vote was intended to safeguard against uninformed or uneducated voters by putting the final decision in the hands of electors most likely to possess the information necessary to make the best decision.2. The Electoral College ensures that all parts of the country are involved in selecting the President of the United States.3. The Electoral College guarantees certainty to the outcome of the presidential election.	<ol style="list-style-type: none">1. The reasons for which the Founding Fathers created the Electoral College are no longer relevant. Modern technology allows voters to get necessary information to make informed decisions in a way that could not have been foreseen by the Founding Fathers. Also, while Alexander Hamilton in 1788 saw the electors as being "free from any sinister bias," members of the Electoral College are now selected by the political parties and they are expected to vote along party lines regardless of their own opinions about the candidates.2. The Electoral College gives too much power to "swing states" and allows the presidential election to be decided by a handful of states.3. The Electoral College ignores the will of the people.

Activity 4 Conclusion/Extension

The concluding activity will have students remain in their groups and become more involved in attempting to resolve 21st Century voting rights issues. Each group will be assigned a topic of their choosing (ex. felony disenfranchisement, voter ID laws, gerrymandering). Only one topic per group. Once the topic has been taken by a group it may not be picked again. This is to create variety. The groups of students will then draft a bill. The students will act as legislators to persuade the other members of the class to pass their bill. Finally, each bill will be voted on by the entire class via secret ballot.

Steps to Delivery:

1. Have the groups of students choose a problem they want to address related to voting today.
2. Research and write out a more in-depth explanation of your issue. Make sure to include both the pros and cons of your topic.
3. Describe the outcome you hope to achieve and begin preparation for the drafting of a bill to address the problem. What impact do you foresee it having? What obstacles do you anticipate?
4. After groups have done their research and written down the necessary information have them begin to draft a bill. It should include:
 - a. Opening statement of main purpose
 - b. List any additional purposes or objectives to be met
 - c. Any provisions within the bill
 - d. Who is it targeting and who is responsible
 - e. Include penalties
 - f. Short title
5. Once all groups are done they will take turns to present their bills to the class.
6. Allow for a short period of debate after each bill has been presented.
7. Students will then cast a secret ballot vote after each bill has been debated. It is recommended that results be revealed together at the end of all presentations and voting .

Power of the Pen Activity

English Language Arts (ELA) Connection

Directions: The First Amendment of the U.S. Constitution allow citizens the right to “to petition the Government for a redress of grievances.” Teach students the power of the pen by writing to elected local, state and national leaders about an important issue in the community.

Step 1: Student conducts research using an academic database accessing news articles about an important issue impacting the community

Step 2: After reading the news articles, the student will highlight the specific concern and action required to address the issue

Step 3: The writing process – the student identifies who (elected official) would be in receipt of the letter

Step 4: The student writes the letter to include the six main parts (Date, Heading, Salutation, Body, Closing, Signature)

Step 5: Peer review – the student exchanges the drafted letter for peer editing

Step 6: The student submits the revised letter to the teacher for final review

Step 7: The student addresses the envelop - sender (upper left corner) and recipient (bottom center)

Step 8: The students mails the letter with a postage stamp in the upper right corner
